

# Can you target-shoot safely in the Butte?

NO - not anymore!  
It's too dangerous

Most of the people who live here and most of the people who play here want to feel safe and at peace

This poster was created for the Butte community by artist Dutch White from real-life events in our neighborhood. Produced by Butte residents with help from Palmer Soil & Water Conservation Service and US Fish & Wildlife Service.

Trees and brush may hide homes, people on trails, and wild and domestic animals. If you see or hear shooting which makes you afraid or puts you and others in danger, call Alaska State Troopers 745-2131

The following shooting ranges are available to the public and/or members of Armed Forces: Birchwood, Grouse Ridge, Matanuska Valley Sportsmen, Potter, Ft. Richardson
